### **1. The Power of Words in Our Witness**

Peter's witness at Pentecost changed thousands of lives. Words have power.

- How do the words we use reflect our faith in Christ?
- Can you think of a time when someone's words encouraged or discouraged your faith?
- How can we be intentional about using words that build others up and point them to Christ?

### **2. Love and Inclusiveness in Witnessing**

The Pentecost event welcomed people from different backgrounds and cultures into the faith.

- How does the inclusiveness of the early church challenge us today?
- What are some practical ways we can show love and respect to people of different backgrounds?
- How does the phrase, "We serve not to convert but because we are converted," reshape our approach to witnessing?

### **3. Commitment to the Church**

The early disciples devoted themselves to teaching, fellowship, breaking of bread, and prayer.

- Why is being an active part of a church community essential to our witness?
- How have you personally experienced growth in your faith through the local church?
- In what ways can we encourage greater involvement and commitment in our church today?

### **4. Trusting God in Our Witness**

Peter stood up and witnessed without knowing how people would respond.

- What fears or hesitations do we have when sharing our faith?
- How can we overcome these fears and trust that God will work through us?
- Have you ever shared your story with someone? What was the experience like?
